| Notes: <br> a. Reporting Period is Calendar Year 2018. <br> b. Deferred compensation is reported only for the year when earned or accrued, whether or not funded, vested, qualified, or non-qualified or subject to substantial risk of forfeiture. <br> c. (*) Report title, not employee name. <br> The reasonableness of executive compensation pay is important and is determined independently by the Board of Director's Compensation Committee with the assistance of a third-party executive compensation consultant. The third-party executive compensation consultant provides the Compensation Committee with comparable market pay data, helps determine what level of pay would be considered reasonable, and also provides a formal opinion indicating the reasonableness of any proposed pay actions. The consultant's opinion demonstrates that the Board members did the proper due diligence and relied on an independent expert opinion. The Board of Director's Compensation Committee incorporates the consultant's market pay data when determining what base pay increase it would like to give and what incentive payout is appropriate, and ensures the resulting pay package is within the appropriate range and remains reasonable. |  |  |  |  |  |  |  |
